BLACK PEARL

Best of Palau

Malakal to Malakal | Rock Islands Southern Lagoon

Palau is home to some of the best scuba diving sites in the world.

The Rock Islands Southern Lagoon holds the best of Palau in one route.

Its most famous dive has a strong current that draws sharks, jacks, trevallies, barracudas, turtles and Napoleon wrasse, and it is dived at least twice because every tide brings something new.

Elsewhere a narrow channel drift passes reef sharks, turtles and coral gardens, manta rays visit a man-made channel to feed on plankton, and great hammerheads patrol slopes and canyons.

A cavern is lit from above through four holes, and a wall drops almost 300 metres.

Second World War wrecks, tanks and planes lie below, and golden jellyfish drift in Jellyfish Lake.
