BLUE MANTA

Raja Ampat and Misool

Sorong to Sorong | Raja Ampat and Misool

Raja Ampat is the epicentre of marine biodiversity, with 580 kinds of coral and 1,397 species of fish, 23 of them found nowhere else.

In Misool, picturesque coral gardens lie in mild currents, and the remote islands on the western tip boast abundant coral gardens with mantas and mobulas flying by in the blue.

Large aggregations of anchovies attract hunting mobulas, jacks and snappers.

Further north are a pristine hard coral garden, dives among the mangroves and an excellent muck night dive in the Dampier Strait.

Between dives, beautiful lagoons and limestone islands rise around you, with a short trek up to a bird's eye view of them.
