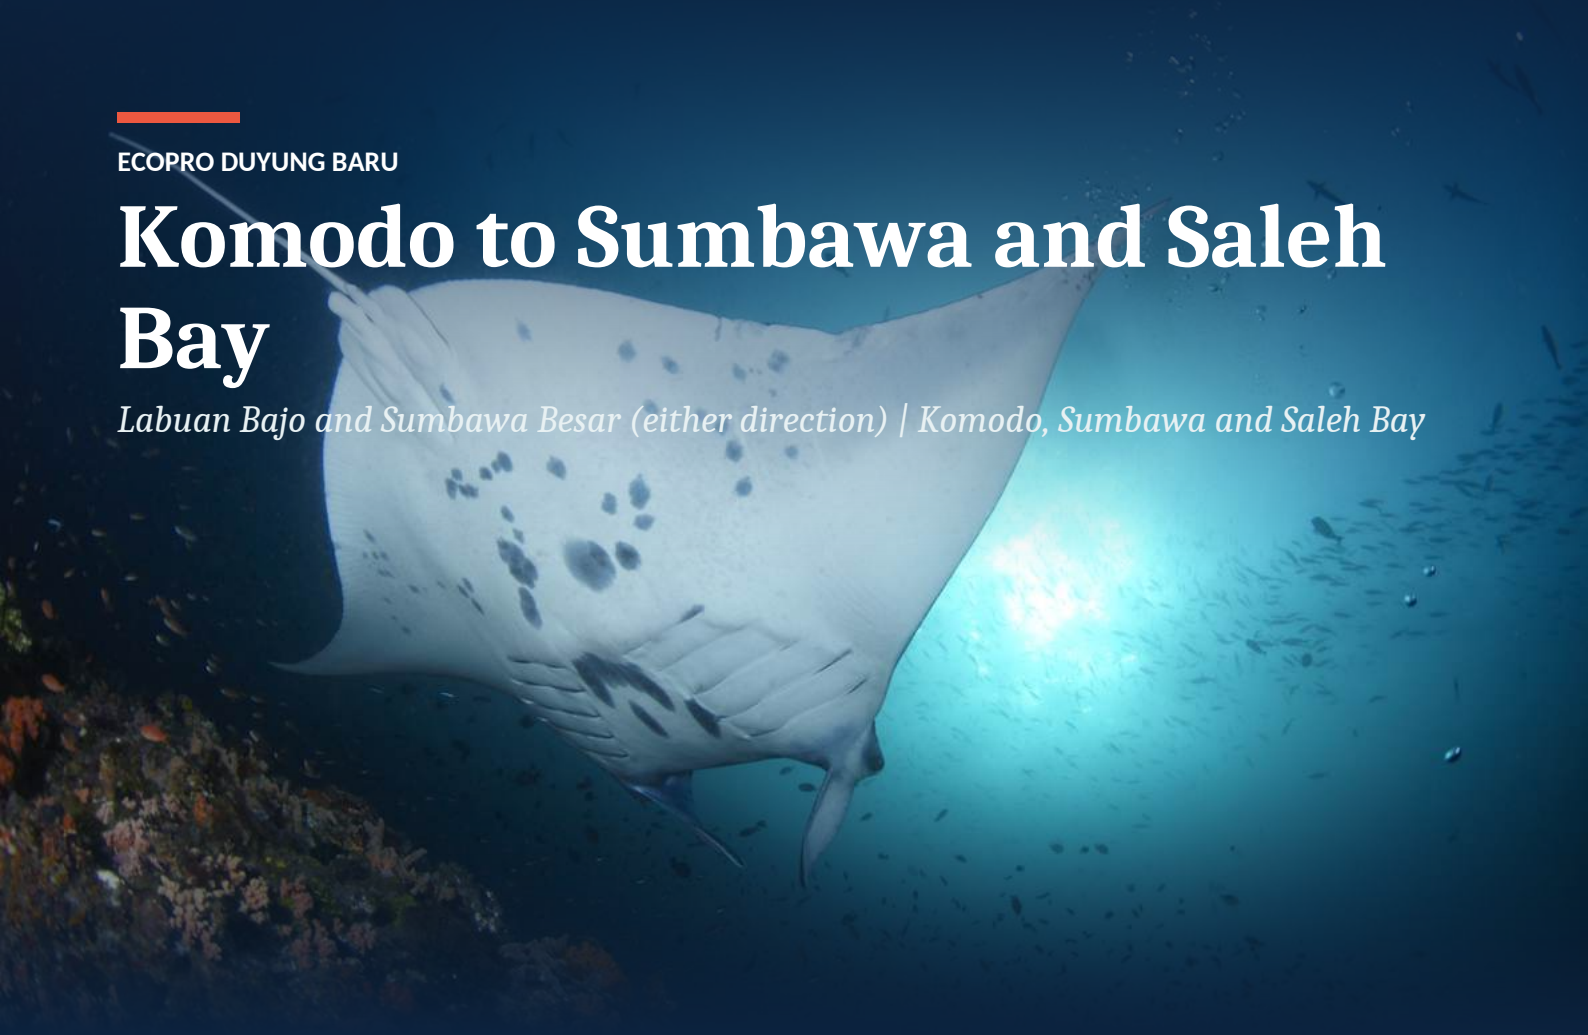
ECOPRO DUYUNG BARU

Komodo to Sumbawa and Saleh Bay

Labuan Bajo and Sumbawa Besar (either direction) | Komodo, Sumbawa and Saleh Bay



This unique expedition sails between Komodo National Park and Sumbawa Island, combining world-class dive sites with remote exploration.

Its one truly unforgettable highlight is snorkelling or diving with the whale sharks of Saleh Bay.

Between Komodo and Sumbawa the route leaves the crowds behind, with fewer boats and the healthy, untouched reefs of western Sumbawa full of life.

Pinnacles, walls and sloping reefs hold reef sharks, turtles and schooling fish, and the macro life is incredible, with pygmy seahorses, nudibranchs and ghost pipefish.

Night dives bring rare critters and glowing plankton.

Above the water are volcanoes, sandbanks and reef lagoons, and a visit to the Komodo dragons.

GOOD TO KNOW

On land and on the way

For snorkellers

This route is very rewarding for adventurous snorkellers. Whale shark encounters in Saleh Bay are usually at the surface, and Central Komodo and Sumbawa have vibrant coral gardens and shallow reef edges full of life.

Beyond diving

Remote island stops, uninhabited beaches and peaceful anchorages, a Komodo dragon visit depending on the direction and schedule, and scenery from volcanoes to sandbanks and reef lagoons.

When and for whom

Best time to travel: april to November. Recommended for: experienced divers and adventure-seeking snorkellers.
