WORTH KNOWING

Key notes

Good to know

Open Water divers with at least 20 logged dives in the past year can join the dives, and divers without that experience need a private dive guide.

Good to know

The total number of dives and the dive areas depend on the weather and current conditions, and the captain and dive master can change the dive area for safety reasons.

Good to know

Nitrox is available for certified divers and sidemount diving is possible, and non-divers are welcome, with a snorkelling guide.
