GAYA BARU INDAH

Ambon, Banda Sea and Raja Ampat

Ambon to Sorong | Banda Islands, Koon, Hatta, Nusa Laut and Misool

Two of Indonesia's great dive regions in one journey, the Banda Sea and the coral gardens east of Misool.

In October and November and April and May, large schools of hammerhead sharks gather in the Banda Sea, and whales and large pelagics such as mola mola, dogtooth tuna and sailfish are often seen.

Around Banda Neira the reefs sit beside Portuguese and Dutch fortresses and a nutmeg forest.

The coral gardens of extreme biodiversity east of Misool offer pristine hard and soft coral, shared with mantas, sharks, schools of jacks, tuna and fusiliers.

Night dives are made at suitable places.
