GAIA

Komodo National Park

Labuan Bajo to Labuan Bajo | Komodo National Park

Komodo is a New 7 Wonder of Nature, set in the Coral Triangle where marine biodiversity is the highest in the world.

It is a land of contrasts, with warm Flores Sea waters in the north and cooler currents with temperate ocean life in the south.

The underwater terrain has sheer walls, pinnacles, caves, swim-throughs and channels, dressed in hard and soft corals of every colour, size and type.

More than 1,000 species of fish live here, and you can expect encounters with pelagics.

Macro lovers find unusual critters special to this area.

LENGTH	DEPARTURE PORT	ARRIVAL PORT	EXPERIENCE
7 nights	Labuan Bajo	Labuan Bajo	Certified divers

Trip highlights

1

A land of contrasts

Komodo has a rich biodiversity, born of a land of contrasts, from warm waters and tropical species to cooler currents with temperate ocean life.
More than 1,000 species of fish and hundreds of different corals are protected by the park rangers.

2

The dive sites

The dive sites stretch from the warm waters of the Flores Sea in the north to the chillier waters of the Indian Ocean in the south.
The underwater terrain has sheer walls, pinnacles, sandy flat bottoms, plateaus, slopes, caves, swim-throughs and channels, with hard and soft corals of different colours, sizes and types.

3

Marine life

Expect encounters with pelagics, and a wide range of critters for macro lovers, including unusual critters that are special to this area, so bring your macro lens.

GOOD TO KNOW

On land and on the way

Seasons

The dry season is May to September, and the area can be dived all year.

Water

Water temperatures range from 22 to 29 °C, from the south to the north of the park.

Routes

The routes are a guide and can change.

Check in

Check in time depends on flight arrivals, and the boat arranges transfers to and from the port.

Check out

Check out time depends on flight departures.
