JAKARE

Raja Ampat South

Sorong to Sorong | Misool, Pienemu and the Dampier Strait

Misool is the heart of this route, a seascape of limestone mounts and hidden lagoons above the water and a great underwater world below.

Tunnels pierce the rock from the surface to the depths, and huge gorgonian fans share the water with turtles, reef sharks and barracuda.

Pinnacles carry black coral and colourful soft corals, schools of anchovies draw in pelagic predators, and mantas have been spotted.

Further north, the Dampier Strait brings coral gardens, clouds of fusiliers and current-swept soft coral pinnacles.

A manta cleaning station in shallow water comes last, then an evening beach barbecue.
