LADY DENOK

# South Raja Ampat

*Sorong to Sorong | South Raja Ampat*

South Raja Ampat gets all the attention, with each day's dive sites chosen to suit the weather, sea conditions and currents.

Night dives open up the nocturnal marine life of the reefs.

Between dives there are treks to the famous lagoon viewpoints of Piaynemo and Wayag.

| LENGTH | DEPARTURE PORT | ARRIVAL PORT | EXPERIENCE |
|---|---|---|---|
| 10 nights | Sorong | Sorong | Advanced Open Water |

## Life on board

> **Lady Denok publishes no daily plan for this trip; the sites each day are chosen to suit the weather, sea conditions and currents.**

1

### Snorkelling

If you do not dive, you can still explore vibrant marine life in some of the best locations. Snorkellers are accompanied by a crew member as a guide, and a speedboat always follows closely.

2

## Kayaking and Paddleboarding

Two kayaks and two paddleboards are available when the boat is anchored, to explore the shore or lagoons.

3

## Trekking

As an alternative to diving, there are trekking opportunities to explore the surrounding areas during dive breaks.
In Raja Ampat guests can trek to the famous lagoon viewpoints of Piaynemo or Wayag, and in Komodo they can trek to meet the Komodo dragons.

4

## Spending Time on Deck

Relax on the deck, soak up the sun, or enjoy the stunning views.

5

## Night Dives

Depending on the itinerary, night diving may be offered for a unique experience of nocturnal marine life.

6

## Post-dive Recap

Share the highlights of the dives with fellow guests and crew, along with photos if available.

GOOD TO KNOW

# Your day and the conditions

### A typical day

06:00 Wake up call. 06:30 Light breakfast. 07:00 First dive. 08:30 Warm breakfast. 10:30 Second dive. 12:00 Lunch. 14:30 Third dive. 16:00 Snack time. 18:00 Night dive (depending on the itinerary). 20:00 Dinner.

### Weather

In this region of Indonesia the weather can be unpredictable, even in the typically “dry” season, with occasional rain showers. The sea tends to remain calm, although there may be brief storms and occasional light swells in the northern areas. Average temperatures hover around 30°C.

### Visibility

Raja Ampat’s waters are teeming with marine life, which can sometimes affect visibility. Visibility generally ranges between 10 and 20 metres, varying from site to site.

### Water temperature

The sea temperature remains consistently between 28 and 30°C (82 to 84°F) throughout the entire year.

### Currents

Raja Ampat is famous for its strong, dependable currents that support a rich variety of marine life. Before every dive the guides assess the current so that briefings provide the latest conditions.

INCLUDED

## What your trip covers

### INCLUDED IN THE TRIP PRICE

- Dive equipment rental, nitrox and 15 litre tanks
- Onboard satellite telecommunication
- Tips for crew, which are optional
- Excursions not organised by Lady Denok

WORTH KNOWING

## Key notes

### Flying

Before the trip, all guests complete an enrolment form with their flight details, dietary preferences and any allergies, so the onboard team can prepare in advance, including airport pickups for those arriving on the same day as embarkation

### Good to know

Dives are conducted as non-decompression recreational dives, with a maximum depth of 35 metres, and a safety stop is required at the end of each dive

### Good to know

The crew prepare a dive box for each diver. The first dive is a check dive, during which the dive masters assess each diver's skills and comfort level, and the diving groups are organised by experience level, interests and safety needs

## Respect the reef

Before each dive the cruise manager briefs the topography, depths, currents and potential hazards, and the marine life you can expect to see

## Good to know

The crew carry your tank and equipment between Lady Denok and the dinghies. In the dinghies the tanks are secured in designated slots, and the guide assists you in gearing up right before the back roll into the water

## Good to know

There is 1 dive guide for a maximum of 4 divers, and books about reef and coral fish are available onboard

## Good to know

Cruises are open to divers with a PADI Advanced Open Water certification or its equivalent and a minimum of 30 logged dives. Less experienced divers are welcome, with special supervision arranged before the cruise

## Flying

Typically there are 3 to 4 dives a day, with a maximum of 2 on the first and penultimate days. The last dive is on the penultimate day, at least 18 hours before your flight
