Christmas Cruise

Male to Male | North Male, South Male and Ari

Christmas in the Maldives swaps the white snow for white sand washed by the clear water of the Indian Ocean.

North and South Ari are the most reliable place in the Maldives for pelagics and big schools, with whale sharks, mantas and eagle rays, napoleon wrasse, grey reef and white tip sharks, blacktail barracuda and batfish.

North Male has caves, drop offs and reefs, and South Male brings strong currents, soft coral walls, green turtles and eagle rays.

On Christmas Eve a barbecue of catch of the day seafood is held on a deserted island, under the stars.
