SCUBASPA YANG

New Year’s Eve Cruise

Male to Male | Central atolls

Ari Atoll is the most reliable place in the Maldives for pelagics and big schools, where whale sharks, mantas and eagle rays visit, along with napoleon wrasse, grey reef and white tip sharks, blacktail barracuda and batfish.

North Male is among the first atolls ever dived in the Maldives, with rock faces, caves, drop offs and overhangs, and sharks, mantas and large morays.

South Male has soft coral walls, big eye trevally, eagle rays and green turtles.

The week ends with the new year welcomed on a private uninhabited island with pearl white sand, a DJ and a sky full of stars.
