AMIRA

Misool and Triton Bay

Sorong to Kaimana | Misool, Pulau Pisang, Mommon and Triton Bay

The heart of the Coral Triangle, reefs on steroids, the best diving in the world and the highest biodiversity in the world: these are just a few of the lines used to describe the diving in Raja Ampat.

Misool is most likely the best diving in Raja Ampat and maybe in Indonesia, with a no-take zone that protects its fish, corals, sharks and manta rays.

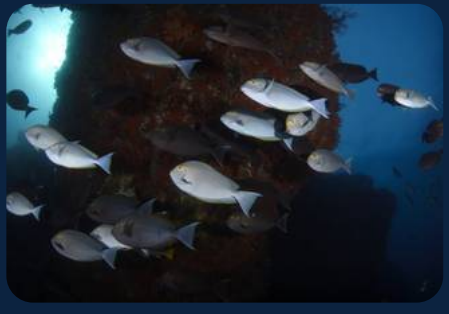

Triton Bay has an intact underwater world, with lush gardens of soft and black coral, schools of fish and wobbegong sharks.

Around Aiduma Island the macro is amazing, with some of the favourite critters.

On the way, a unique waterfall sits at Momon.

The finale is a special chance to dive with whale sharks at the fishing platforms, which are often visited by different species of dolphins.

Your itinerary

DAY 1

Boarding

No dives

The Amira crew pick you up from the airport or hotel.
After a welcome drink you check in to your cabin, then have breakfast or lunch, depending on the time you arrive.
Once everyone is on board, the cruise director gives a detailed boat and safety briefing, and in the afternoon a general diving briefing explains how the diving is organised.
Usually there are no dives on the first day.

DAY 2-5

Misool

3 to 4 dives a day

After embarkation Amira goes straight to the Misool area.
A no-take zone ensures rich fish life, beautiful corals, sharks and manta rays, in what has the highest biodiversity in the world.

DAY 6-7

Crossing via Pulau Pisang and Momon

1 to 2 dives a day

After a few days at Misool you start the crossing via Pulau Pisang and Momon, where there is a unique waterfall on the way.
During the two crossing days there are only 1 to 2 dives a day.

DAY 8-9

Triton Bay and Aiduma Island

3 to 4 dives a day

Triton Bay has an intact underwater world, with lush gardens of soft and black coral, schools of fish, wobbegong sharks and amazing macro with some of the favourite critters, around Aiduma Island.
Visibility averages around 10 metres, because of the plankton and nutrients, but you will find it worth putting your head underwater.

DAY 10

The Bagans near Kaimana

Dives

Closer to Kaimana there is a special chance to dive with whale sharks at the Bagans, the fishing platforms, which are often visited by different species of dolphins.

DAY 11

The last diving day has a maximum of 2 dives, then the boat cruises to the disembarkation harbour.
