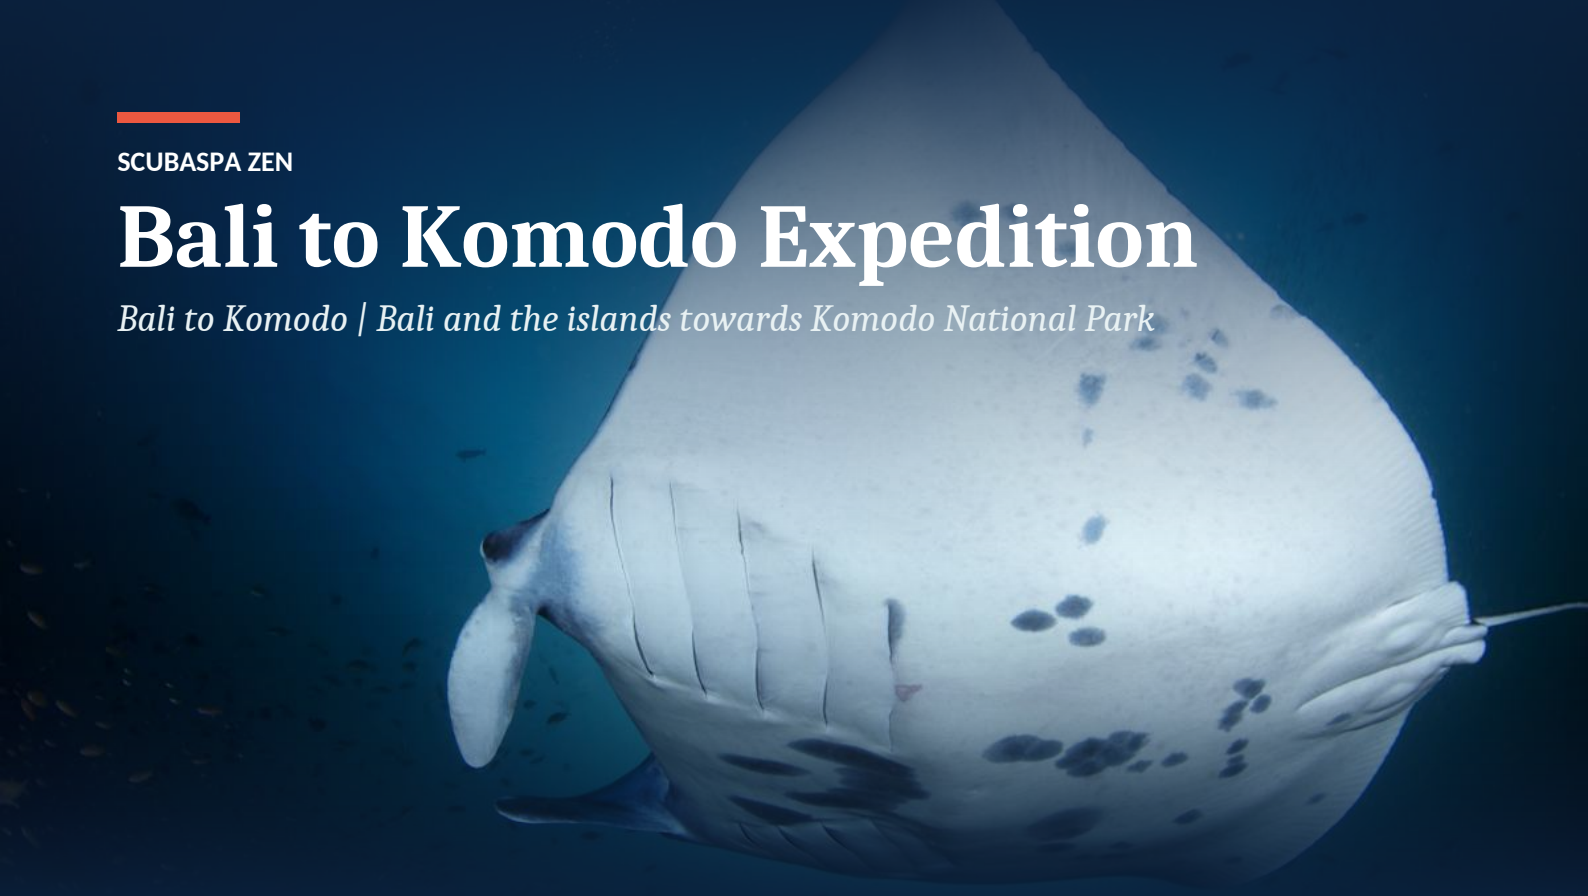
Bali to Komodo Expedition

Bali to Komodo | Bali and the islands towards Komodo National Park



Komodo National Park is a drift diver's destination, where narrow channels carry the Indonesian Throughflow with strong currents and nutrient rich upwellings.

Mantas, reef sharks, turtles, dolphins and hundreds of hard coral species make the most of those channels.

Remote dive sites on the way east across the islands lead up to the park.

On land, the Komodo dragons wait for a trek ashore.
