SCUBASPA YANG

Solo Travellers Cruise

Male to Male | Central atolls

The central atolls of the Maldives are alive with mantas, whale sharks, turtles, reef sharks, eagle rays, stingrays and big schools of tropical fish.

In Ari Atoll, the most reliable place in the Maldives for pelagics and big schools, there are napoleon wrasse, grey reef and white tip sharks and batfish.

Days are filled from sunrise to sunset with diving and snorkelling, with visits to uninhabited islands and sandbanks.

The week closes with a beach barbecue and a beach party under the stars.
