Komodo to Bali Expedition

Komodo to Bali | Komodo National Park and the islands towards Bali

Komodo National Park is a UNESCO World Heritage Site where narrow channels carry the Indonesian Throughflow and make the park a drift diver's destination.

Strong currents and nutrient rich upwellings bring mantas, reef sharks, turtles and dolphins over hundreds of species of hard coral.

Visits to the Komodo dragons are part of the journey.

The route then continues west across the islands towards Bali, to remote dive sites.

Your itinerary

1

Komodo National Park

Drift dives and dragons

Strong currents and nutrient rich channels bring mantas, reef sharks, turtles and hundreds of hard coral species, with Castle Rock, Crystal Rock, Shotgun, Manta Alley and Batu Bolong among the best known sites, and visits to the Komodo dragons.

2

Towards Bali

Remote dive sites

The yacht continues west across the islands towards Bali.

3

Bali

The cruise ends in Bali, where guests are escorted to the airport.
