

CALICO JACK

Raja Ampat to Triton Bay

Sorong to Kaimana | Misool, Pisang, Momon and Triton Bay

Triton Bay is underwater heaven, where fields of soft coral, thick forests of black coral and sea fans dominate the reef, and fish of all kinds and sizes are everywhere.

Boulders covered in orange soft corals nearly break the surface, with sweetlips in the black coral and waves of anthias.

It is also one of the only places in the world where whale sharks can be met all year round, drawn to the fishing platforms where fishermen feed them for good luck.

Before it, Misool brings oceanic manta rays at a cleaning station and white tip and grey reef sharks.

LENGTH	DEPARTURE PORT	ARRIVAL PORT	EXPERIENCE
12 days / 11 nights	Sorong	Kaimana	Open Water, 10 dives

Your itinerary

DAY 1

Embarkation in Sorong (Raja Ampat)

1 Dive

We will pick you up at Sorong airport and take you to the harbour where our crew will welcome you onboard Calico Jack.
Following refreshments and a short tour of the ship, you will be briefed on safety, diving operations, and life onboard.

DAY 1

Embarkation in Sorong (Raja Ampat) (continued)

1 Dive

You will be served a delicious lunch and have time to get acquainted with the ship, set up your dive gear & cameras, and meet and socialize with the other guests and friendly crew.
We will do a check dive in the area later in the afternoon.
Early morning, we will navigate to Misool.

DAY 2

Daram, Misool

4 Dives

Andiamo is a large, stunning reef with a submerged pinnacle covered in sea fans and surrounded by schools of fusiliers and batfish.
Blacktip reef sharks and napoleon wrasse can also be found here.
The Candy Store, named so as the first divers to explore this reef felt like kids in a candy store, is covered in huge sponges, beautiful corals and sea fans.
In the valleys, schools of fusiliers, butterflyfish, and barracuda gather.
Night Dive in Yillet.

DAY 3

Yilliet, Misool

4 Dives

In the early morning, we will take short navigation to dive the Fiabacet area which is colourful, so corals and beautiful sea fans smother the reefs.
A deep underwater ridge connects the islands of Boo in the East to Kalig in the West.
In certain areas, the ridge moves up shallower to form the most unforgettable dive sites in the park.
These include Batu Kecil (also known as Tank Rock), Nudi Rock, and Whale Rock.
Here you will find one of the most extensive reef systems in all of Raja Ampat, offering a fantastic range of marine diversity.
You can expect abundant and healthy fish life, a galore of pygmy seahorses, nudibranchs, colorful anemones, and reef sharks.
Night dive in the area.

DAY 4

Warokaraket and Boo Islands, Misool

3 Dives, diving with manta rays

Shadow Reef, also known as Magic Mountain, is one of the top-rated diving sites in Raja Ampat. An off-shore pinnacle with a long and narrow ridge, schools of bannerfish, pyramid butterfly, and yellow snappers can be seen cavorting on top of the ridge, persistently stalked by giant trevallies, orange-spotted jacks & longnose emperors.
The ridge goes progressively down, with yellowtail barracudas patrolling the upper sector and white tip and grey reef sharks found nestled under the large coral tables.
At the end of the peninsular is a cleaning station where oceanic manta rays come to be cleaned from parasites by wrasse and other reef fish.
Boo Rock or Jamur Boo is known for the “windows” or rounded openings on the end of the largest rock that completely pierce the reef from the surface down to five meters deep.
Although the two rocks appear separate from the surface, they are, in fact, connected underwater by a magnificent reef draped in such corals and brimming with fish.
Reef sharks, parrotfish, surgeonfish, schooling batfish, fusiliers, snappers, and moray eels are all found here, as well as a wide variety of nudibranchs, unicornfish, octopus and green turtles.
Yellit Kecil’s (while sharing all of the attributes of its neighboring sites) main characteristic is a large number of Nembrotha nudibranchs that can be observed on the ridge.

DAY 5

Wayilbatan, Misool

4 Dives

The Wayilbatan area offers impressive dive sites with a remarkable range of marine diversity and topography.
At Wedding Cake, schools of batfish, trevallies, barracuda, and pygmy seahorses congregate.
In the afternoon, you will have the opportunity to take in the scenic landscapes with some kayaking and paddle boarding amongst the most spectacular hidden lagoons in the region.
The Four Kings dive site is made up of four underwater pinnacles covered in soft coral and colourful tunicates.
You can swim from one rock to the next, enjoying the soft corals, psychedelic colors, and abundant fish life.
Be sure to look out for turtles here.
Overnight navigation to Pulau Pisang.

DAY 6

Pisang Island

3 Dives

Seventy miles south of Misool is the beautiful Pisang archipelago where we’ll dive off the surrounding islands.
The corals are extremely healthy in this remote area and are full of life.
You’ll see giant elephant ears, swirling schools of a wide variety of fish, mantas, and turtles.
Overnight navigation to Momon.

DAY 7

Momon

3 Dives, Visit to the Waterfall

Early morning, we arrive at West Papua's Momon reef, where we will make three dives on this large hard coral seamount, which is blessed with some of the healthiest fish life in the area.
Large schools of Bigeye Trevally, schools of batfish, napoleon wrasse, Barracuda, and Giant Trevally reside here.
Afternoon we will visit the beautiful Kiti Kiti waterfalls where a freshwater river runs right into the sea!
Early morning navigation to Namatote.

DAY 8

Namatote

3 Dives

Five-hour navigation from Triton Bay are the islands of Namatote and Sagin.
Rich with diverse fish life and beautiful hard and soft corals, these islands are great for macro and pelagic species.
Soft coral walls teaming with schools of jacks and barracuda, turtles, wunderpus octopus, and all kinds of critters make it great diving for both wide-angle and macro enthusiasts.
We will manage three dives in this area.
Early morning navigation to Triton Bay.

DAY 9-10-11

Triton Bay

8 Dives, Beach BBQ

Triton, Larry's Heaven Larry's heaven dive site is, without a doubt, one of the most beautiful places ever and has been given its name by the late Larry Smith.
The colors and sheer diversity are truly mind-blowing experiences.
Fields of soft coral, thick forests of black coral, sea fans, and hard corals dominate the reef.
Fish, fish, and fish are everywhere, all kinds and all sizes, true underwater heaven.
Aiduma dive site is an island outside of the mouth of Triton Bay.
Every inch is occupied by some invertebrate and an abundance of soft and hard corals.
Large numbers of jacks, mackerel's patrol these waters.
Large groups and tasseled wobbegongs also call this dive site home.
Little Komodo dive site resembles the famous invertebrate-rich sites that abound in Southern Komodo National Park and is one of the top dive sites in all of West Papua!
A series of boulders about 14m high, covered in diminutive orange soft corals, schools of sweetlips in black coral and waves of anthias and damselfish on steroids, nearly break the surface.
While in Triton Bay we will enjoy one of Calico Jack's famous beach BBQ parties, where the crew will entertain and socialize with you as you relax on our giant bean bags under a pagoda while being served up our chef's delicious BBQ dinner.
Four hours from Kaimana, we visit the head of the village for permission to swim with the local whale sharks.
This is one of the only places in the world where you can encounter whale sharks all year round.
The whale sharks are attracted to the local fishing platforms (bagans) because the fishermen feed them as they believe they bring good luck.

DAY 12

Disembarkation in Kaimana

After breakfast and the last exchange of photos and memories, the crew and Calico Jack will say our fondest farewell and transport you either to your hotel or airport.
We are looking forward to welcoming you aboard.

GOOD TO KNOW

On land and on the way

Small groups

Dive groups are limited to 5 divers per guide, with a dedicated tender.

Activities

Kayaks, stand-up paddle boards and snorkel gear are on board.

Check in

Private transfers collect you from the airport or your hotel and take you to the harbour, where the crew welcome you on board.

Check out

After breakfast on the last day the crew transfer you to your hotel or the airport.

Itinerary

Each sample itinerary is an example, and navigation and dive sites vary with the weather.

INCLUDED

What your trip covers
