ECOPRO SEASCAPE

Deep South Male to Gan

Male to Gan | South Male, Vaavu, Meemu, Thaa, Laamu, Huvadhoo, Fuvahmulah and Addu

Without a doubt the king route in the Maldives.

Almost every trip sees up to 10 different shark species: grey reef, whitetip reef, nurse, tiger, whale, spinner, blacktip reef and silvertip sharks.

From stingrays and mantas near Male to tiger sharks in the far south, this is a long run through the atolls, mostly channel dives with many shark species.

Famous channels in South Male and Vaavu bring strong current, reef sharks, eagle rays, barracuda and napoleons.

Whale sharks come to a stern light in Thaa, and in Huvadhoo a two kilometre coral garden carries turtles.

Fuvahmulah is the climax, where 15 or more tiger sharks sometimes come up from the drop-off, before Addu adds oceanic mantas.
