Raja Ampat

Sorong to Sorong | Dampier Strait, Gam, Yangeffo and Misool

Raja Ampat has reef manta rays of every shade and size, including the all-black mantas distinctive to the area, gathering at a cleaning station.

Fast drift dives and big fish schools mark the Dampier Strait, with swarms of fusiliers, snappers and sweetlips, bumphead parrotfish and grey reef sharks cruising in the blue.

Around Gam are some of the best hard coral gardens in Raja Ampat, and a stunning reef covered in carpet-like orange, pink, yellow and green soft corals.

Batanta is muck diving where there is really nothing that cannot be seen.

Sardine Reef

Swarms of fusiliers, snappers and sweetlips, schools of bumphead parrotfish and banner fish, barracuda and trevally that come to feast on the nutrients in the surrounding water all make this site a very fishy dive.
