

NORTH ROUTE 7 NIGHTS ITINERARY

Day 1

Hulhumalé

Day 2

North Malé Atoll > Lhaviyani Atoll

Dune staff will pick you up at Malé International Airport and bring you to the main boat. Enjoy a drink while listening to our Cruise Director welcome briefing. Dinner will be served in the evening and you will spend the first night at Hulhumalé marina.

The trip will start by discovering the dazzling long reefs and manta point of North Malé Atoll. At about 15 meters depth only, the sites offers the best conditions to observe manta rays. Marine life here is extremely diverse, some of the most beautiful pinnacles will give you exceptional and colorful memories.

Here you will not find only wall dive, but also current swept channels that are full of sharks, including grey reef sharks, white tip reef sharks, and black tip reef sharks. Keep looking in the blue and you will often see tunas, barracudas, and eagle rays too. When night falls, you will be invited to go ashore and indulge yourself in the barbecue dinner prepared by our crew on a nearby desert island.

Day 3

Lhaviyani Atoll

Day 4

Lhaviyani Atoll > Baa Atoll

Day 5

Baa Atoll

Taking you back in time to the 80's, you will dive on two ships. One of them dramatically protrudes through the surface. Both wrecks are covered in hard and soft corals and full of fish life. Exploring Maldives is also setting foot in paradise. Our crew will lead a visit to the nearby local island just before dinner.

Baa Atoll was declared a a UNESCO World Biosphere back in June 2011. Its amazing reefs of Baa offer a wide variety of marine life ranging from small fishes and turtles to the giant filter feeders, mantas and whale sharks. Walls and thilas full of hard and soft corals, plateaus, overhangs, pinnacles and swim throughs are all yours to explore.

The famous Hanifaru Bay, located on the eastern side of Baa Atoll, is one of the marine protected areas. From August to November, both whale sharks and manta rays aggregate here to devour the zooplankton blooms brought by the southwest monsoon. By regulation, only snorkeling is allowed here, but there are many fascinating dive sites for your delight just nearby.

In North Malé Atoll you will find stunning long reefs, small caves, colourful corals with prolific marine and reef life once again. Take a closer look at the squirrelfish, bannerfish, oriental sweetlips, frogfish, and nudibranchs. In the afternoon you will come back to Hulhumale marina to spend your last night on board.

Day 6

Baa Atoll > North Malé Atoll

Day 7
North Malé Atoll

Day 8
Hulhumalé
