Typical day

In the afternoon there is more navigation or a second dive, and at 4 pm island hopping or a rest. A night dive is planned once a week, with dinner at 20:00.

Manta snorkelling

Snorkelling sessions with manta rays are planned at secret places, and the senior instructor decides the route and the dive sites with the captain each week, depending on the currents, the tides and the weather.

Diving rules

Every activity is supervised by a qualified CMAS or PADI instructor from the Seafari team, who briefs the site, the currents, the wildlife and the safety rules before each dive. The senior instructor can require in-water supervision, or stop a diver whose level is not enough to dive safely.

Dives

There is normally one dive on the day before disembarking, finishing before lunch.
